Experience

Twenty 7 Group LLC | NV, Las Vegas

Full Stack Software Developer | Magento CMS Administrator | 10/2019 - Present

- Conceptualize and develop a custom MERN stack (MongoDB, Express.js, React, Node.js) application for invoice management, significantly optimizing the sales team's efficiency in generating and managing invoices with enhanced aesthetics and functionality
- Utilize Magento CMS v2.4 to maintain the company's online store, ensuring all products and SKU details are up-to-date and effectively presented, leading to better SEO performance and upgrading user experience
- Improved the company's website by transitioning to a new major version of the tech stack and implementing a new theme, significantly elevating performance, user experience, and visual appeal
- Supervise the warehouse team and operations successfully with strong leadership skills, ensuring seamless incoming and outgoing shipments through effective coordination and organization

TrackHubs LLC | Remote Contract

Front-end Software Developer | 02/2024 - Present

- Maintain and develop features for a comprehensive invoice management application using the MERN stack, modernizing operational efficiency and data handling for business clients
- Contribute to the software development lifecycle, from system design to implementation and maintenance, ensuring robust, scalable solutions within a dynamic team environment

US Bext Ltd | NV, Las Vegas

Magento CMS Administrator | E-Commerce Product Manager | 11/2016 - 05/2019

- Managed the company's online product catalog and inventory using Magento CMS, ensuring a seamless e-commerce experience
- Lead the successful integration of Fulfillment by Amazon (FBA), growing it to account for nearly half of the company's revenue stream by implementing strategic inventory and listing management practices
- Directed warehouse operations, including staff supervision, order processing, and inventory control, to enhance efficiency and accuracy in fulfillment
